Dear Mr. Levin,

Thank you for following up on our experiences with your company, and I am happy to say that they were completely satisfactory.

Considering that installing the walk-in tub is a major problem with narrow doorways to maneuver, and large items to handle everything here looks like it "belongs" and we are very happy with it.

Everyone we expected was here on time and did their job well from the salesperson, the man who did the measuring and the 2 who actually installed. Those 2 guys are exceptionally remarkable, work so well together and are very considerate of the homeowner. When they finished it was hard to tell they had ever been here except for the new tub which definitely looks like it "belongs" there.

Sadly, we do not know many folks in Texas. We moved here from Calif. Because we were not in good health and our only son lives here. We DO know many doctors and medical facilities, and should anyone ask or mention any of the many products and services your company supplies we will certainly give them your information.

Again, thank you for a job well done.

Sincerely,

Ruth Huls

Dear Tom

Just a note to let you and others know about my experience with the Safe Step Walk-In Tub. I found out about the tub in a magazine ad and was impressed with the professional way information was presented. The warranty is excellent and quality of the product impressive.

My goal in purchasing the tub is to be able to stay at home instead of going to a nursing home as my age and infirmities increase. The operation of the tub is simple and all controls are easy to access. I opted for the most expensive tub offered (has therapy lights and aroma as well as the air jet and water therapy).

It is a pleasing experience and I recommend the Safe Step Walk-In Tub. On the down side, because I am tall and over- weight you have to manuever around to get past the door into the tub. Also, I like to shower before filling the tub and enjoying the jets and sometimes I run out of hot water. It was suggested to me to shower, then go out to dinner, and upon return use the tub as it is meant to be used. This seems to be a perfect solution.

I am glad that I purchased the tub.

Sincerely

Just sending a letter to let you know how positive my bath remodel experience has been.

From the first contact with Buddy through the entire installation process, I couldn't be more pleased.
My bathroom is beautiful!

Thank You,

Dear Statewide Remodeling,

We were very pleased with the entire Statewide Remodeling experience, from the sales representative, Donald Kuncel, to the office staff and the professional installers. The bath exceeded our expectations. What stood out with your company were the personal service, contact and concern exhibited by everyone that seems to be far above the standard with other companies today. I want to offer my compliments to Statewide remodeling for a job well done.

To: Statewide Remodeling

I am writing this letter in regards to our experience with Statewide Remodeling. They remodeled both of our bathrooms and did an unbelievable job.

The sales representative, Alan Miller, showed up at our house and did an excellent job with his presentation. He explained the product very well, was very thorough about everything. He was very professional, knowledgeable, and we felt very comfortable having him in our home. Because of his "non high pressure" approach, my wife and I decided to use Statewide to remodel our bathrooms, and we are glad that we did!

The next person we met with was the project manager, Michael Landreth. He came out and reviewed the contract and re-measured our bathrooms. He thoroughly explained the scope of the work and things that we should expect. Michael was very nice, professional and re-assured us that your company would do an excellent job.

The installers were simply amazing! They turned 2 bathrooms that were not very attractive and made them beautiful. I believe their names were Aaron and Alfonso. They worked very hard; they were very clean and organized. I was truly impressed with the amount of pride they took in their job.

Our entire experience that we had with your company was amazing. EVERYONE was up front and honest with us. When Alan came to our home, he immediately told us that Statewide was not a cheap company (which is surprising to hear from a sales representative). However, he promised us that we would be happy with the project if we chose Statewide. He was correct!! He quoted the project to take 14 days to install everything. I think both bathrooms were completed in 4 days! The project manager, Michael, came out to our house on multiple occasions just to make sure "everything was going right."

Though the project cost a little more than we expected, it was worth it! If we had to do it all over again, we would choose Statewide in a heartbeat and highly recommend them to anyone.

Thank you again,

Robert and Janette Bayer
