Statewide Remodeling

2940 N. Hwy 360 #300

Grand Prairie, TX 75050

Attn: Jerry Melton, General Manager

Dear Mr. Melton:

We recently contracted with Statewide to install covers over our upper deck balcony and lower patio areas. From the day Mr. David Castillo, salesman for your company, came to our home to make representation of your product and discuss with us our project to the completion of the installation of the finished project, we have been extremely impressed with the quality of the product, the knowledgeable individuals involved and the work ethics of the crew that erected and installed the covers.

We were very impressed with the work crew assigned to our job. Monty McGonagill, Chad Hayes, Royce Taylor, and Chris Taylor did an excellent job. They were all friendly and knew the product well and were quite willing to answer any questions we had during the installation. Joe Torrez, electrician who installed our fans, was also friendly and did his job well and neatly. Overall, the crew had great work ethic, team players and were dedicated to doing a very good and quality job.

We feel the completed project is of excellent quality. Our experience with everyone involved was outstanding. What stood out with your company are the personal service, contact and concern exhibited by everyone that seems to be far above the standard with other companies today. That personal contact telling us the status of our project from start to finish was of high importance to us and set your company above all others we have dealt with in the past.

Please accept our compliments to everyone on a job well done. We are very pleased we went with Statewide Remodeling for the balcony and patio covers.

Respectfully,

George A. and Joyce C. Griner
