

Hi Jason,

Just a note to let you know how happy we are with our remodeled bathroom. We seldom write letters of recommendation, since most service providers generally do not provide exceptional service.

However, we must say that our experience with Statewide before, during and after our project has simply been outstanding.

Our consultant was professional and very helpful in providing methods to keep the cost as low as possible. The tradesmen (electrician, plumber, and tile installer) were exceptional. They were friendly, highly competent, fast and neat workers who had workable solutions when the inevitable unexpected problems developed. The job supervisor was outstanding in his positive and consistent interest in satisfying us. Plus, the new bathroom is a dream come true.

We are genuinely very satisfied and will happily call on Statewide in the future for our remodeling needs.

Phil and Pat
